An effective approach for figuring out a price is to send out a survey to your current customers. If these clients have already purchased an ebook from you, ask for his or her opinion in terms of price. Do this by making a gross sales page for the new ebook, but don't embrace a worth on that page. Another technique is to check out costs by making a variety of duplicate gross sales pages with different prices on every page. Make sure your sales copy is precisely the similar on each page, and contains your selling-handle sentence. Then work out for every page the conversion ratio between visitors to your website and gross sales of your book. This can tell you what your optimum price is.

Finally, when you've written a book that solves a downside or presents a new technique, your e-book will bring in each site visitors and profits.
