An effective technique for determining a price is to send out a survey to your current customers. If these customers have already bought an book from you, ask for their opinion when it comes to price. Make sure that your sales copy is exactly the same on each page, and consists of your selling-deal with sentence. Then work out for every page the conversion ratio between visitors to your site and gross sales of your book. This will let you know what your optimum value is.

Finally, should you've written a book that solves a drawback or presents a brand new technique, your
