An efficient approach for figuring out a price is to send out a survey to your current customers. If these prospects have already bought an ebook from you, ask for their opinion in terms of price. Do

this by creating a sales web page for the new e-book, however do not include a price on that page. Instead, add plenty of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other technique is to check out prices by creating a variety of duplicate sales pages with totally different costs on every page. Be sure that your sales copy is precisely the identical on every page, and contains your promoting-handle sentence. Then figure out for every page the conversion ratio between visitors to your site and sales of your book. This will tell you what your optimum price is.

In the end, if you've written a book that solves a problem or presents a new approach, your e book will usher in both traffic and profits. So you should definitely write that promoting-deal with sentence that sums up what downside your book solves and what the advantages of your 810 book can be to the customers who buy it.
